

EMDEON PAYMENT MANAGER  
SIMPLIFYING PAYMENT AND RECONCILIATION FOR HEALTHCARE PROVIDERS

---

*Simplifying the Business of Healthcare*

# Faster, Easier Payments

Decrease costs and expedite cash flow

Centralized Storage of  
Archived Data

Customer Defined  
Reporting Options

Payment Deposits to  
Any Bank

Simplified Enrollment

As changing market dynamics continue to increase the pressure to maximize revenue and profit, providers and healthcare systems are searching for ways to reduce costs while increasing efficiency across the billing cycle. To that end, Emdeon Payment Manager delivers valuable electronic payment and reconciliation processes to help providers eliminate paper checks, reduce costs and shorten the revenue cycle.

Emdeon Payment Manager can dramatically reduce expenses, shorten the reimbursement cycle and streamline workflow. This increased efficiency saves time and allows providers and staff to focus on reconciling outstanding payment issues to capture otherwise lost revenue.

## Enroll once for EFT to all Emdeon participating payers

While previous electronic payment processes require providers to enroll with each individual payer, with Emdeon Payment Manager providers only have to enroll once to connect with every participating payer\* in the industry's largest, most trusted network. Once connected to their payers, providers save time with electronic funds transfers (EFTs), flexible delivery preferences and quick access to remittance and payment information.

## Better forecast cash flow with timely electronic deposits

Beyond the elimination of paper checks, providers also benefit from faster access to reimbursements and electronic funds transfers (EFTs). Having accurate and up-to-date information for all anticipated payments allows providers to accurately forecast their cash flow at any time. Since our innovative electronic payment service can connect to any bank, providers can choose which banking partnership works best for them.

## Simplified Enrollment Management

At Emdeon, we're here to help. To transform the way you run your healthcare business today, call us at **877.EMDEON.6** (877.363.3666) for a complimentary review.

*\*Payer specific enrollment may be required for non-participating payers.*

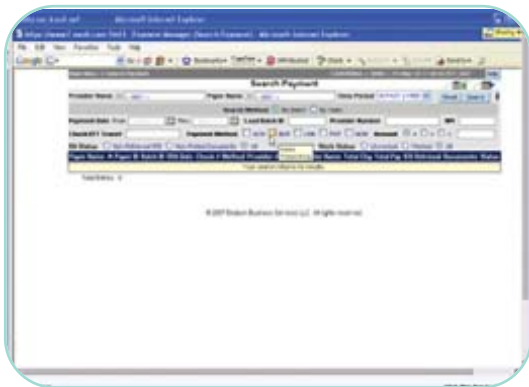

## Powerful Tracking and Storage of Payment Information

### Harness the power of electronic remittances

Emdeon Payment Manager gathers remittances from all enrolled payers and presents them in a consistent and easy-to-understand format. Providers can then quickly search, view or print each remittance as needed.

The centralized reporting delivered by Emdeon Payment Manager allows providers to obtain detailed information and trends on all payment data. Electronically managing payments by amount and by specific payer information can lead to a simpler, more efficient reconciliation process that reduces the errors which commonly slow down payment posting.

### Features

- Self-service delivery preference tools
- Web-based, user-friendly tool for viewing payment and remittance information
- Electronic deposit of claim payments to any bank
- Central location for storage and retrieval of remittance advice and payment data

### Benefits

- Fast, easy and secure payments
- Simplified enrollment
- Reduced paper and printing costs
- Streamlined reconciliation process
- Detailed online payment visibility
- Faster processing of secondary claims
- Reduced file faxing with documents accessible from multiple locations
