

Emdeon Medicare Secondary Billing

Fast

Efficient

Customizable

Automated

Faster, automated Medicare Secondary Billing

Emdeon Medicare Secondary Billing automates time-consuming Medicare Part A secondary billing tasks, improves data accuracy and helps providers get paid faster. Upon receiving Electronic Remittance Advice (ERA), secondary claims and the associated Explanation of Medical Benefits (EOMB) can be automatically generated. The optional "Accelerated" service speeds up payment even more by automatically gathering data from the Medicare online system which allows you to generate secondary claims and the EOMB up to 12 days before primary payment.

Flexible solutions designed just for you

The clear advantage of faster secondary claim billing is a more efficient revenue cycle, but the most important feature of Emdeon Medicare Secondary Billing may be its flexibility. Every customer is unique, and we work closely with you to develop a customized Medicare billing solution that more than meets your needs.

Print locally and eliminate the inventory

Documents can be printed locally on standard paper, eliminating expensive forms inventory, and all data can be reviewed through our exceptional suite of reports.

Faster billing impacts your bottom line

Hospitals, physician practices, billing services, or virtually anyone handling large volumes of Medicare secondary billing can benefit from Emdeon Medicare Secondary Billing. By saving time, reducing staff requirements and expediting billing, Emdeon Medicare Secondary Billing can positively impact your bottom line.

Automated Secondary Billing for Medicare Part A

At Emdeon™, we're here to help. To transform the way you run your healthcare business today, call us at [800.444.4336](tel:800.444.4336) for a complimentary review.

Emdeon Medicare Secondary Billing saves time and money

Emdeon Medicare Secondary Billing matches your stored Medicare primary claims information with the returned ERA or the automatically coordinated online data. Once claims are approved, all local primary and secondary claim information is updated and secondary claims can be automatically generated, sorted, printed and mailed locally. With the Accelerated option, this can be up to 12 days before primary payment.

Emdeon Business Services can also remotely print and mail these documents for you for an additional fee. In addition, comprehensive reporting provides easy access to all information at any time, for total claim accountability.

Features

- Efficient, automated Medicare secondary billing
- Custom-designed Medicare billing solutions
- Comprehensive, user-friendly reports
- Integration with most information systems
- Storage of primary and secondary Medicare claims data
- Locally collated and printed secondary claims and associated EOMB
